

*There's a whole new
world out there ..*

DuoHylo
from Romahome

Romahome welcome

Romahome Ltd are specialists in the manufacture of micro coach-built motor homes. We have a manufacturing plant based on the Isle of Wight, combined with a specialised dealer network across the UK and Ireland.

Since the first Romahome was built in 1982, Romahome's philosophy has been to produce motor homes that have the versatility, economy and drivability of a car combined with all the features of a motor home. This is why many of our owners have their Romahome as their only vehicle.

Romahomes have evolved even further on this theme by introducing new models that incorporate four seats with seatbelts, and introducing a low profile motorhome for better access to car parks and parking in garages.

Award Winning Romahome

Romahome have been manufactured by skilled craftsmen on the Isle of Wight for 25 years, and we have continued to win awards for design and quality since 1988 from the caravan and motorhome industry for our vehicles.

DuoHylo

Designed to meet an ever growing demand for comfort, versatility & economy with up to 50mpg

A low roof derivative of the Outlook encompassing all the impressive features, but thanks to its unique easy raise roof design the Hylo is low enough to fit into most domestic garages.

It will also fit under standard car park height barriers and into a multi-storey car park, and even gain lower costs on some ferries. In the transit position the Hylo is only 1.93m high (6'4").

Yet, raise the roof - an operation that takes just seconds - and the Hylo has the standing room and interior space to make your travels even more pleasurable.

DuoHylo
